Excellent news on getting into Columbia. Yes quite a fire here last week. All OK at home but many in the community have been severely impacted. 1000 homes gone.

Dear Dr. Fasullo,

I just heard about the wildfires in Colorado, and I hope that you and your loved ones are safe.

Please let me know if you need anything!

I also wanted to let you know that I got into Columbia! I plan to major in physics, and the climate science research at Lamont-Doherty is super cool! Thank you so much again for writing that letter, as I'm sure it helped a ton.

Sincerely,

Ben

Thanks Ben – thanks to you and yours as well. Believe it or not but we are still waiting on some of the simulations to be finalized as I found various errors in them. I have some thoughts on how we'll tie up our manuscript and will send you a draft when ready. It could be a few months though. In the meantime, best to you and yours and it has been a pleasure to work together.

Here's to a better 2022!
John

Dear Dr. Fasullo,

Merry Christmas! I am writing to thank you for all the time you have devoted to helping me to become a scientist. You were (and still are) extremely supportive, kind, and generous. I cannot begin to describe how important your help has been these past few years, or the generosity you showed by making time to support an enthusiastic student you have never even met. You made me who I am as a scientist and you were the best mentor I could have possibly asked for. I also wanted to thank you for the letter of recommendation you wrote for me (I don't know what you wrote, but it was definitely good). Merry Christmas to you and your family! I hope that this project has also been a good experience for you, and I look forward to a continuing friendship between us in the future!

Thank you so much,

Ben
