great job! Don't feel nervous you obviously know your content very well!
work on eye contact, don't tell us you're nervous work through it, don't say you don't totally understand something because we understand it less than you
Ben spoke slowly, allowing the listeners to better understand and grasp his presentation. However, the flow of his presentation was interrupted due to nervousness. He did a great job!
Be consistent with captions being under figures. The RoL slide could be less wordy
N/A
Possibly go more into depth in the definition of terms unique to the field.
I just think that once you become more comfortable with your presentation, it'll flow easier. Overall the presentation was very interesting
I really enjoyed your presentation, it was easy for me to follow through especially since I am somewhat unfamiliar with this field. I suggest that you explain your data more clearly since it was a bit confusing looking at the graphs and not entirely understanding what it was trying to show. Overall, I enjoyed your presentation a lot!!

This was a very interesting presentation, clear and precise, the commentary throughout the presentation and telling us what you understand was very helpful.

He presented clearly and it was easy to understand and it was overall an interesting presentation.
