  - O It is the student's responsibility to be on time, and to be ready to present.
  - O If there are technical difficulties, students will have 3 minutes to resolve those issues (consistent with National JSHS), but those 3 minutes come out of the time allotted for that student.
    - Teachers may want to set up a zoom and practice with students.
- Presentations are 12 minutes, Question and Answer is 5 minutes.
  - O Students **MUST** have their **camera ON** for their presentation.
  - Students will be expected to share their screen to display their ppt.
  - Widescreen format PPT works best in virtual/Zoom setting.
  - O Students may use ppt tools such as the built-in laser during the presentation.

  - O A moderator will introduce the student and keep time.

- The moderator will quietly indicate when 10 minutes is reached by saying: "10 minutes" students should respond with a nod or a verbal thank you and continue presenting.
- The moderator will stop the presentation at 12 minutes.
  - If you finish early, the time not used is lost—it will **NOT** be added to the Q&A time
- Once students have presented, and their morning or afternoon session is over, they may leave the room if they choose.

WR-JSHS is very happy to host this event-virtually. The entire WR-JSHS committee has worked hard to create a virtual symposium that will be rewarding and memorable for all the senior student researchers. We ask that you be patient and know that we will do all we can to ensure you have a great experience. Please be sure to check your technology, be sure your computer is updated, has been shut down and restarted recently and that everything is running as you expect—this will minimize tech issues on the day of the symposium.
